

# AN OVERVIEW OF ORGANIZATION MAPPING

## Organization mapping may be used to represent...

- ✓ Internal business units and their decomposition into sub-business units
- ✓ The capabilities each business unit possesses
- ✓ External business units, their relationships to internal business units and the capabilities they deliver
- ✓ Informal structures such as collaborative teams and steering committees

## Organization mapping may be leveraged for...

- ✓ Organizational clarity, transparency and restructuring
- ✓ Organizational design and effectiveness (e.g., uncover redundant capability delivery)
- ✓ Outsourcing decision-making
- ✓ Impact analysis and more...
